

RESPONSIBILITIES

Final Phase Due by END OF DAY (MONDAY 5/11/20)

- **Presentation May 12th 5:30-7:30 over Zoom**
- Each team has 10 minutes to present their final project.
- Every member must participate.

- Presentations must include the following:
 - Team and project introduction.
 - Ivan
 - Explain the design of the project.
 - Ivan / Yew
 - Discuss requirements, classes, and interactions.
 - Avin - Requirements segment -- show + explain your docs
 - Yew - Classes / Interactions
 - Ivan - Interactions
 - Show and discuss your software testing plan.
 - Ivan - Testing Plan Doc
 - Yew - Actual testing
 - Demo your project.
 - Ivan / Yew - Share screen, demo the project

- **Each team member will submit the following deliverables:**
- Each team member should submit your own unique project status report.
 - who did you work with, how did it go, where did you grow, 'couple paragraphs'
- Submit all of your git logs.
- Provide screenshots of your code in operation.
 - Screenshots - put them in a document and annotate what exactly the code is doing
- Provide screenshots of test suite runs.
- Provide all project documents.
- Provide all source code.
- Provide all testing code.
- Provide COMPILED JAVA CODE.
- Zip all of your submission documents into a single zip file.

- **In the BlackBoard submission comment field include:**
- Give the names of all members of your team.
- Provide the link to your current project GitHub repo.

- **Missing files will result in a score penalty.**

Phase 6 Roles:

- **To Do:**
 - Update GUI with gameplay methods
 - Update junit testing
- **Yew:**
 - instantiate working code for game rules
 - add methods to play GUI version of the game
 - (1.) make sure it is working for one player vs CPU Dealer in the GUI, then 2.) add functionality for multiple players vs CPU Dealer)
 - database management
 - connectivity btwn GUI / DB / Website
- **Avin:**
 - ensure that Yew's game method code is accurate to the requirements of the BlackJack game
 - update junit testing
- **Ivan:**
 - website for registration
 - basic version done as of 4/30/20
 - basic mySQL database connection established to website 4/30/20
 - powerpoint for final presentation
 - add card images to GUI

GENERAL ROLES

Ivan - Front End / GUI / UI work / simulated objects / general code editing // overall project management (making sure deadlines are being hit, updating the roadmap & schedule)

Avin - Classes / Objects (making sure all the object content is correct) / assistant project manager (helping make sure the schedule and roadmap is correct and feasible) / Requirements document

Yew - Database / assistance with front end and back end -> all-around code management
